

DPV-122

Collinear / High Gain / VHF/UHF Frequency Range / Multiple Band

PRODUCT DESCRIPTION

Model Number: DPV-122
Part Number: 1000-2304-201

Antenna Products' collinear antennas are designed for ground-to-air and point-to-point communications. Lightweight, rugged, and weatherproof, the DPV-122 is constructed of corrosion-resistant materials and contains no exposed dissimilar metal joints. The antenna is supplied with mating coaxial connector and mounting hardware to secure the antenna to a support pole.

PRODUCT SPECIFICATIONS

Frequency Range: 850-960 MHz; 1760-1990 MHz and 2000-2500 MHz
Polarization: Vertical
VSWR: 2.0:1 Max
Connectors: Type N
Gain: 2 dBi minimum
Isolation between ports: -25 dB
Power Rating: 25 watts each port
Length: 42 inches
Diameter: Radome = 2 inches;
Max base diameter = 3 inches
(for N connectors)
