

# DPV-124

*Collinear / High Gain / VHF/UHF Frequency Range / Multiple Band*

## PRODUCT DESCRIPTION

Model Number: DPV-124  
Part Number: 1000-2305-201

Antenna Products' collinear antennas are designed for ground-to-air and point-to-point communications. Lightweight, rugged, and weatherproof, the DPV-124 is constructed of corrosion-resistant materials and contains no exposed dissimilar metal joints. The antenna is supplied with mating coaxial connector and mounting hardware to secure the antenna to a support pole.

---

## PRODUCT SPECIFICATIONS

Frequency Range: 850-960 MHz; 1760-1990 MHz  
and 2000-2500 MHz  
Polarization: Vertical  
VSWR: 2.0:1 Max  
Connectors: Type N  
Gain: 4 dBi minimum  
Isolation between ports: -25 dB  
Power Rating: 25 watts each port  
Length: 56 inches  
Diameter: Radome = 2 inches;  
Max base diameter = 3 inches  
(for N connectors)
